RECEIVED

JUN 14 1993

June 2, 1993

FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

Office of the Secretary  
Federal Communications Commission  
Washington, DC 20554

JUN 14 1993

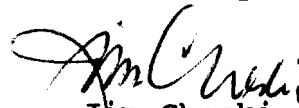

Dear Sir:

With regard to Federal Communications Commission notice of Proposed Rule Making in MM Docket No. 93-106 addressing channel loading, please be advised the University of Louisville is opposed to this proposal and believes such action conflicts with the primary purpose of ITFS.

We believe channel loading is not in the best interest of ITFS operations. Multiple channel, simultaneous ITFS transmission of instructional programming is essential to effectively and efficiently support the distribution of educational programming during a varying but frequently overlapping time schedule to address the fluid nature of instructional scheduling.

We oppose channel loading and reject further attempts to reduce ITFS channel allocation further.

Sincerely,

Jim Cheski  
Assistant Vice President  
Information Technology
